

Financial statement about the members of the IBCA.

The treasurer proposes that countries listed below this paragraph are seen as members of the IBCA and count for the quorum. These countries have paid at least one of the annual fees since 2019. The year 2017 should have been chosen because of the congress that was held in June 2017 in Macedonia. In practice, the documentation and money from the IBCA was transferred to me at the end of 2018. For a lot of countries there was no clear information if they paid their annual fee or not. To keep equality in treatment of members therefore the year 2019 was chosen.

The 52 one member countries for the quorum:

Argentina

Austria

Azerbaijan

The treasurer has received proposals of debt settlement or has received recent information of the payment of annual fees by the following countries. I leave it to the board to decide if they should be allowed to vote and or count for the quorum.

Philippines: the invoice was send on request by them in September 2023 as a new member. No payment has been received.

Kind regards

Treasurer
