Every time I save a page someone is going nuts. Haha

What happened was that they were in the middle of an operation which they have almost certainly completed successfully many other times and then I suddenly appeared out of nowhere and haven't left since. Every single save now is just more proof of the fraud. They are going to have to do something or scrap the whole thing and just delete or revert back to originals and hope this goes away.

I have been saving all the time. In fact I just created a patch in Touchdesigner today that allows me to automatically save 5 individual page URL's every few seconds by clicking a button....and then inbetween each click I would switch to a different VPN location before doing the next. So technically the whole photoRobot site on wayback machine should have a big save shown today....but they can't keep up with that level of pages. They thought they were just going to make a few adjustments and spruce things up for photorobot to steal my patent and now they know they are screwed as I have been saving new wayback captures with most of the page group saves as well.

They have lost complete control. I even snapped a bunch of saves on NYE shortly after midnight to let them know I was celebrating their idiocy.

And the other thing is that they FOR SURE KNOW I AM THE ONE CAUSING ALL OF THEIR PROBLEMS! I just looked at the email exchanges between us and everything becomes even clearer.

All of the pieces are now falling perfectly into place.

Can you guess what day I signed up for a user account with the archive?

DECEMBER 9TH, 2022 @ 2:45am

I then proceeded to make use of my new account 'PatentlyFalse' by snapping an archive save of the entire PhotoRobot website exactly twenty minutes later at 3:05am

I then began browsing through all of the PhotoRobot pages and an hour and forty-one minutes later at 4:46am I took my first of two pdf screen captures of PhotoRobot.com/blog which is when I caught someone editing the archive in real time within a 5 minute window and two PDF screen captures.

Here are my emails between the web archive which includes a .png of a draft I almost sent but decided against while I collected more evidence.

And that's a wrap... ;-)
