Matt,

Great, we are monitoring the status of the Trojansky/Netflix patent application. We have gone ahead and submitted the PhotoRobot material to the Patent Office in your current application. As of yesterday, your patent application was indicated as having undergone the allowance pre-check, meaning it is allowed but no notice of allowance has been mailed yet. Hopefully the Examiner will review the PhotoRobot materials, acknowledge them, and continue with the Notice of Allowance mailing efficiently so that the Notice of Allowance still follows shortly.

Once we have that, we should go ahead and pay the Issue Fee. The patent would then, with a little bit of luck, grant before the end of 2022 (but more likely grant sometime in January 2023). After that, it should be safe to go ahead and file the third party submission of prior art in the Trojansky/Netflix application.

We will also want to think about - given the Trojansky/Netflix patent application - whether to file a Continuation Application or a Continuation in Part application. If we add new material to the disclosure we should be mindful of what is in the Trojansky disclosure as that will be prior art to the new material added. Thus, it might be best to start with the filing of a continuation application first as there is then no question as to your priority rights.

Regarding assignment of the patent application - we can do that at any time. Recordal is quick and can take effect in days. If you want InfiniSet, Inc. to be listed as the owner of the patent on the face of the patent that issues, we should go ahead and assign the patent application. We can determine the best time to file, but if you can confirm that we should prepare the assignment documents for your execution, we will get those sent over to you. You can assign the patent any time - its up to you. The only urgency now would be if you want to have the InfiniSet, Inc. name on the face of the patent.

Have you incorporated and registered your entity yet? In Minnesota? That will be the first step before we assign the patent application/patent. I did not see an InfiniSet, Inc. registered in the MN secretary of state's office. However, let me know if you need assistance here with registering if you have not already and whether or not you have thought about registering as an LLC instead (as this

can be a bit easier for a single member company and also eliminates the need for formal articles of incorporation etc.).

Best regards,

Amanda
