EQUIPMENT FOR 360 AND 3D PRODUCT PHOTOGRAPHY

PhotoRobot equipment for 360 and 3D product photography provides cutting-edge technological solutions to meet the needs of any e-commerce project. Fully automate an in-house product photography studio or simply find the right tools to capture photos for a smaller webshop or online retail. With PhotoRobot's versatile equipment, lighting setups and automation software, companies can quickly capture perfect photography for products of any size, streamline the process of uploading 360 and 3D imagery to the web, and improve overall workflow by automating robotic tasks and post image processing.
