MCRO COURT RECORDS FRAUD - It appears Ai is being utilized to produce COMPLETELY FAKE COURT CASE RECORDS, DEFENDANTS, AND DOCUMENTS

05/05/2024 | Affidavit of Fact | MCRO DATA ANALYSIS ORIGINAL DOWNLOAD LINK
<https://drive.proton.me/urls/QA8TBVTHEC#Wy7ygZMVpev7>

I wrote a Python script and downloaded over 3500 case files for over 150 or so cases

I sourced these specific cases / defendants through an additional analysis in which I cross linked shared cases between the same judge, and two judicial referees that have been responsible for EVERY single decision that has taken place in my court proceedings thus far for my criminal case 27-CR-23-1886 in the Hennepin County 4th Judicial District Court. What I found is extremely starnge to say the least. It appears they are creating completely 'fake' (made up..) defendants and cases but I have no idea exactly why or what the specific purpose behind this might be.

Just take a look at the 'returned mail' as well as many of the 'comp order for detention' documents, and you will very quickly realize something isn't right..
