# Military Training Simulation and Ai Neural Network Applications of InfiniSet, Inc. patent

EXHIBIT

D

"Its potential applications in military training simulations are vast, offering a confluence of safety, realism, and cost-effectiveness."

<https://mattguertin.substack.com/p/potential-military-and-ai-applications>

What is being presented in this post is the final ouput I arrived at [during this conversation](#) with chatGPT4 which can be referenced in its entirety [-here-](#)

---

*“[The patent from Feb 14th, 2023](#) presents a pioneering step in virtual immersion technology. Its potential applications in military training simulations are vast, offering a confluence of safety, realism, and cost-effectiveness. Moreover, when merged with the power of advanced AI systems, this technology could revolutionize how military personnel are trained, providing them with adaptive and hyper-realistic scenarios that can mimic the unpredictability of real-world operations.”*

---

## Overview & Analysis: Potential Military and AI Applications of the [Feb 14th 2023 Patent](#)

**1. Introduction:** [The patent granted on Feb 14th, 2023](#) introduces an intricate system that seamlessly integrates the user into digitally rendered environments. Using a motorized rotatable treadmill assembly and an advanced animation timeline controller, it offers users a realistic experience of navigating through a virtual space. Such a system can have profound implications for military training simulations and AI-driven content generation.

### 2. Military Training Simulations:

- ♦ **Realistic Environments:** The ability to insert a user into a pre-filmed or digitally rendered environment can provide military personnel with near-authentic training scenarios, which can be customized to replicate real-world combat situations.
- ♦ **Infinite Exploration:** The patented treadmill mechanism allows the user to traverse the environment along the 2D ground plane in any direction infinitely. This feature is indispensable for wide-area tactical drills and navigation exercises.
- ♦ **Safety and Cost-effectiveness:** Virtual training can drastically reduce the risks associated with live drills. Moreover, diverse terrains and situations can be simulated without the logistical nightmares or costs of real-world deployments.

### 3. Advanced AI-Driven Content Generation:

- ♦ **Photogrammetry and Avatar Creation:** The patent discusses capturing the user's likeness from multiple viewpoints simultaneously. Integrating AI tools can streamline this process, using neural networks to generate highly detailed 3D avatars or "digital twins" of the user. AI can also enhance the fidelity of these avatars, refining their appearances and movements.
- ♦ **Scene Rendering:** By leveraging AI technologies like Convolutional Neural Networks (CNN) or Generative Adversarial Networks (GAN), it's conceivable to generate realistic and dynamic 3D environments in real-time. AI can tailor these environments based on the user's actions or specific training requirements, making every session unique.
- ♦ **Interaction and Immersion:** Integrating AI can allow for dynamic object interactions within the environment. For instance, the avatar's shadows, lighting effects, and object occlusion can be rendered in real-time, responding to the avatar's actions. This offers a heightened sense of immersion, crucial for effective training.
- ♦ **AI Control Integration:** The patent mentions the possibility of using AI for controlling the system, analyzing videos to determine the path, rotation, and 3D positional data. This could be pivotal in automatically adjusting the treadmill's motion to match the virtual terrain, enhancing the realism of the experience.

### 4. Remote Operation and Synchronization:

- ♦ **Remote Training:** The capability to remotely control the treadmill assembly, including its speed, direction, and other functionalities, opens up possibilities for distance training. Military personnel stationed in diverse locations can potentially undergo simultaneous training sessions.
- **Equipment Synchronization:** The treadmill system's ability to sync with various equipment suggests potential integrations with other military hardware or tools, such as VR headsets, haptic feedback systems, or even weapon simulators.

**5. Conclusion:** [The patent from Feb 14th, 2023](#) presents a pioneering step in virtual immersion technology. Its potential applications in military training simulations are vast, offering a confluence of safety, realism, and cost-effectiveness. Moreover, when merged with the power of advanced AI systems, this technology could revolutionize how military personnel are trained, providing them with adaptive and hyper-realistic scenarios that can mimic the unpredictability of real-world operations.

## Unethical behavior?, my FBI report, and the AI generated videos

From matt xx >

To Bruce Rivers< xxxxxxxxxxxxxxxxxxxxxxxxx >

Date Friday, June 16th, 2023 at 9:28 AM

Bruce,

So my meeting with you the other day I realized didn't provide me with any information I didn't already have for the most part.

If you're saying that you're going to have me testify on my behalf for the purpose of proving my obvious competency - as far as obviously understanding the nature of the charges against me and being able to aid in my own defense - then how about also presenting my FBI report along with the obviously AI generated videos I analyzed to the court as well as that not only proves my competency but in addition proves that there is in fact a very large conspiracy against me, my company, and my patent which involves AI as well as collusion between the web archive, YouTube/alphabet, Facebook, LinkedIn, etc, etc. as it's very apparent to anyone with eyes to see that all of these videos as well as all of their pdf manuals, website images across multiple fake websites, etc were all generated by AI which inherently proves they were fraudulently added with backdated accounts for the purpose of establishing a false history that would be able to establish a bogus case of obviousness as far as infringing on my patent. I'm able to prove pretty much that everything I wrote on my walls, told to the police, etc does in fact revolve around advanced AI technology just as I've claimed.

At this point I don't even know whether or not you actually read the fbi report I sent you, whether or not you actually looked at the videos I analyzed and had your son look at them like I originally recommended, etc.

You told me on the phone when I asked you about it that "yes... you have some very powerful people keeping an eye on you" and then when I asked you to expound further upon that aspect of our conversation you said that you didn't want to discuss it further and that you didn't trust your phone line.

So what is actually true and why do I feel like I'm intentionally being fucked with or having information about what's actually going on withheld from me? I literally have gotten zero replies for a very long time to any of my emails which I figured was due to the fact that what you originally said to me on the phone was true but after meeting with you the other day you told me that isn't true which means that you lied to me on the phone and that was just a funny joke????

Wtf is going on? That's all I really want to know... and I still don't know. The videos are fake, all of it's fake, I filed reports with the FBI, FTC, and SFO in the UK. There are parts of my FBI report (which I could get in a fuckton of trouble if I were to fabricate anything I wrote) which further serve to discredit the forensic psychologists bullshit letter - this is in addition to the awesome letter I received from my California psychiatrist (who I'm still seeing currently)

The evidence of the fraud may have originally not had anything to do with my case as you mentioned...but that no longer became true once the forensic psychologist claimed I was incompetent and should be committed to a

mental hospital and put on antipsychotic drugs until I'm able to understand the charges against me and aid in my own defense.

This is due to the fact that she based her entire report and her 'diagnosis' on this specific information which means she inadvertently made all of it entirely relevant as far as my criminal defense is concerned. Her report is based on things which she says are 'delusional' which I can very easily prove are 100% factual and real. The actual fraud itself being the main focus in my opinion not to mention all of the other 'delusions' of mine in which I believe I invented something that was going to "revolutionize the industry", that I claim I'm an "engineer", etc, etc. Her report is such over the top bullshit that it's ridiculous and comical...and would remain as just that if it wasn't me and my future being the butt of the joke... she should literally be ashamed and embarrassed by the verbal diarrhea she shat out onto the page and is trying to pass off as being a 'professional' and well thought out report which was written by an esteemed and highly educated 'Doctor'.

Remember what I also discussed with you and which you agreed with me was the case -

That being that if I'm able to completely destroy every aspect of the forensic psychologists report then her report itself becomes my main defense as she thinks my story is so nuts and 'delusional' that she thinks I'm out of my mind (supposedly...) and wants me committed but if I can prove everything is real then it just confirms why I would be so freaked out and end up at a point where shooting a gun off for the purpose of contacting police made complete sense (and still does as I'm of the opinion it was in fact the correct move regardless of its overall legality, etc)

If you could please respond to this email or call me and give me ACTUAL information....especially in regards to why you would tell me on the phone that I have "powerful people keeping an eye on me" and whether or not you actually did ever really look at my fbi report along with the videos I analyzed. (as I believe they are very important pieces of additional evidence which will help aid in my defense)

And in regards to the "powerful people" comment you made to me on the phone just know that I took it seriously and it's greatly affected what I've been doing or not doing in my day to day life since you made it. So if it was just you fucking with me then that's really mean..... and if you were actually being serious well then how come you told me it was not true when I met with you the other day?

The last thing I'm going to mention is the current conflict of interest that exists on your behalf in regards to your YouTube stardom and the fact that YouTube is one of the companies aiding in the fraud being carried out against me. Are you really going to be able to be impartial in what you recommended and how you proceed with my case, what's presented in court, etc when you're just about to hit a million subscribers and you're getting paid a bunch of money by YouTube? I have a hard time believing so but feel free to fill me in on why that's not the case and I'm incorrect in my take on it.

I'm hoping....like I said...that we are able to get all of this cleared up so that I feel like I fully understand what's going on and don't feel like I'm either intentionally not being given certain information or that my lawyer is instead just fucking with me and telling me things that aren't true on the phone which I took 100% seriously and acted on.... and I still don't know at this point now if you actually even looked at my fbi report and the videos or if you just made up some shit on the phone to have a laugh and it's buried in all of your other emails and you haven't even looked at it.

If I can't get clear information and instead am going to be lied to... all while you also have a huge and obvious conflict of interest involving the whole YouTube thing then I may have to try and get someone else to represent me.

I'm hoping you are able to fill me in so I better understand everything. Help me to know what's actually going on. Help me to not feel like I wasn't lied to on the phone as a funny joke as far as the "powerful people" comment.

None of this even takes into account the fact that my initial court appearance has been canceled 4 or 5 times now which is ridiculous just on its own without the addition of everything else I've covered in this email.

There's all sorts of stuff which has occurred that could be considered 'unethical' or at the very least there's enough stuff that I would be completely warranted in trying to find someone else to represent and defend me against the charges I'm facing... which I don't really want to have to do but I 100% would if I felt it would help me to better understand and feel confident that I'm being given complete and honest information regarding my case and assured that the information I've been sharing is actually being considered and looked at.

I know I'm not a 'big' client....I know that my charges in the grand scheme of things aren't exactly 'serious' when compared to the more exciting and profitable homicides, etc you deal with.

I'm not trying to be 'high maintenance'

I'm simply trying to feel like I'm not wasting my time and energy, that the other evidence I've been sharing is being taken into account and considered as part of my defense strategy, and that I'm not being lied to or misled by the person who's entire job is based on having my back and being truthful with me.

That is all. I look forward you your reply.

Thank you,

Matt Guertin

## Re: Unethical behavior?, my FBI report, and the AI generated videos

---

From matt xx >

To Bruce Rivers< xxxxxxxxxxxxxxxxxxxxxxxxx >

Date Friday, June 16th, 2023 at 10:06 AM

---

So to summarize-

My main concern and worry - especially when considering the fact that my case has been canceled multiple times, the comment you made to me on the phone, and the other things I've brought up as concerns of mine - is that you are in fact being pressured by 'outside forces' for the purpose of trying to 'guide' or 'steer' my case into a certain forum and/or outcome.

At the end of the day it's highly probable that I actually do have "powerful people" keeping an eye on me. I've filed reports with the FBI, FTC, and the SFO in which I shared 'in your face' proof of a criminal conspiracy involving a whole lot of the biggest corporations in the world all aiding in the creation of completely fake websites, companies, etc by allowing bullshit accounts to be created with fake creation dates all while it is carried out using AI capable of producing realistic content far beyond what the average person thinks is possible.

It's such a big deal I'd go so far as to say it may put someone's life at risk... mine perhaps?

Or not....but I don't think it's at all crazy for me to think that could be a possible option that's 'on the table' or would be/had been considered. Hopefully that's less likely at this point though. A whole lot of powerful people and enormous companies most definitely have their 'eye' on me though... it would be foolish of them not to. I possess evidence that proves they are all participating in a large criminal conspiracy.

Whether or not you are even actually aware of this information at all is still a complete unknown to me at this point.

And therein lies the problem and the reason for taking the time to send you this email.

Can we not present this side of the story to the court as well...in person....in the form of a multimedia presentation perhaps?

You may simply just not be reading my emails and looking at what I'm sending you.....or maybe there are in fact some very "powerful people" and what was told to me on the phone wasn't just a funny joke?

Either way I don't think I'm acting irrational by wanting answers about why there are certain things that aren't being addressed, discussed, replied to, etc.

It seems like a perfectly reasonable inquiry on my part....as opposed to a 'delusional and/or possibly psychotic' inquiry made by an incompetent person who doesn't fully understand what's going on even though he keeps trying so hard to be able to....

## I need advice asap (this morning..) about my case

From matt xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx >

To Bruce Rivers< xxxxxxxxxxxxxxxxxxxxxxxxx >

Date Tuesday, August 1st, 2023 at 6:27 AM

EXHIBIT

G

Hello,

The courts ended up declaring me incompetent since my omnibus hearing. I received a letter from what I assume is a state appointed defense attorney but Bruce told me "I'm defending you"

However when I spoke to Michael Biglow on the phone and relayed that I had private defense counsel he acted like I was not allowed to be represented by Bruce due to this now being "a civil matter"

He acted like Bruce isn't able to represent me or defend me against the civil commitment proceedings. I don't want to make the wrong decision which could result in me being thrown in a mental institution and I am unsure what the correct way for me to proceed today is.

I already talked to the guy on the phone yesterday for a while and I'm supposed to meet with just him and some neutrally assigned doctor today over Zoom and then after that apparently I'm going in front of a judge.....

I am not sure I should be doing this without being represented by Bruce. It would be really helpful if I could receive some guidance from someone at the office this morning so I know how to correctly proceed and protect myself.

Thank you,

Matthew Guertin

# ChatGPT suggests InfiniSet patent arguments to USPTO against the granted Netflix patent . . . .

## Description of LED Panel Arrangement:

### **InfiniSet Patent:**

Describes a system that includes a motorized treadmill assembly within a green screen or LED virtual film set. The system facilitates the illusion of movement in a virtually rendered setting using an LED floor tile system and a green screen studio environment.

### **Netflix Patent:**

Focuses on a set of display panels surrounding an area, specifically mentioning a first, second, and third set of display panels, which essentially constitute the horizontal and vertical LED screens in a virtual environment.

## Treadmill Technology:

### **InfiniSet Patent:**

Discusses a motorized treadmill assembly with an endless belt on a rotatable turntable, enabling unlimited directional movement and synchronization with camera movements for realistic filming.

### **Netflix Patent:**

Refers to an 'omnidirectional treadmill' and implies its rotation and directional capabilities, aligning closely with the 'rotating treadmill' concept of the InfiniSet patent.

## Integration into Filming Environment:

### **InfiniSet Patent:**

Emphasizes the integration of the treadmill with real-time camera synchronization to create unrestricted movement illusions in a virtual environment.

### **Netflix Patent:**

Describes a similar integration of the treadmill and display panels to capture and render acting performances, aligning closely with InfiniSet's approach.

## Reference to InfiniSet Patent in Netflix Patent:

The InfiniSet patent is cited at the top of the Netflix patent as a third-party prior art submission, indicating its relevance and potential influence on the Netflix patent.

## Arguments for USPTO Consideration:

### Substantial Similarity in Technology:

Both patents describe a system that integrates LED panel setups with a specialized treadmill for creating realistic virtual filming environments. The Netflix patent appears to be a more technical and segmented description of essentially the same technology covered in the InfiniSet patent.

### Prior Art Consideration:

Given that the InfiniSet patent is acknowledged in the Netflix patent, it suggests that the Netflix patent may not meet the novelty requirement due to the prior existence of similar technology.

### Obfuscation in Patent Writing:

The Netflix patent's detailed focus on panel arrangements and the omnidirectional treadmill seems to obfuscate the core technology, which is fundamentally similar to the InfiniSet patent's simpler and more direct description.

### Overlap in Filming Technology Applications:

Both patents aim to achieve the same outcome - allowing free movement and realistic filming within a confined virtual set, utilizing a combination of physical and digital elements.

## Conclusion:

Given these points, it is arguable that the Netflix patent does not sufficiently differentiate itself from the InfiniSet patent in terms of innovation and application. The similarities in the core technology and intended use of the system suggest that the Netflix patent may not meet the criteria of novelty and non-obviousness required for a valid patent grant. Therefore, it's recommended to challenge the Netflix patent's validity based on these grounds.

Hello,

I just stopped writing my initial email, donated \$25 + fees to Wayback Machine, and now I am back.

My question is a simple one -

What is your criteria for someone being able to contact you and request that their information be removed from the web archive? I'm guessing that normally requests come from individuals as opposed to businesses?

My only reason for asking is because I am relying on your site as my main piece of evidence against a company who is very stealthily editing, re-wording, and re-linking a bunch of stuff on their website in an effort to establish a history which isn't true for the purpose of trying to steal something of significant value from me.

What I would like to do is personally, or through an attorney very kindly contact them and let them know that I can very clearly see what they are doing in an effort to try and get them to correct their course early on so I don't have to worry about it - or at the very least they will have to contend with the fact that I have solid evidence that could get them convicted of fraud and decide whether or not that is a risk they are willing to take.

My main worry however is that they could just contact your company and get everything deleted and so that has been bothering me somewhat and has been a pretty large factor in my decision making.

Any insight or knowledge about this topic would be greatly appreciated.

Thank you,

Matt Guertin

What is your criteria for someone being able to contact you and request that their information be removed from the web archive? I'm guessing that normally requests come from individuals as opposed to businesses?

My only reason for asking is because I am relying on your site as my main piece of evidence against a company who is very stealthily editing, re-wording, and re-linking a bunch of stuff on their website in an effort to establish a history which isn't true for the purpose of trying to steal something of significant value from me.

What I would like to do is personally, or through an attorney very kindly contact them and let them

Add. 45

know that I can very clearly see what they are doing in an effort to try and get them to correct their course early on so I don't have to worry about it - or at the very least they will have to contend with the fact that I have solid evidence that could get them convicted of fraud and decide whether or not that is a risk they are willing to take.

My main worry however is that they could just contact your company and get everything deleted and so that has been bothering me somewhat and has been a pretty large factor in my decision making.

Any insight or knowledge about this topic would be greatly appreciated.

Thank you,

Matt Guertin

**Re: LINKS: Exam and Preliminary Hearing**

From matt [REDACTED] &gt;

To Michael Biglow&lt;michael@biglowlaw.com&gt;

Date Tuesday, August 1st, 2023 at 10:14 AM

Michael,

Good morning. Hope you are well.

I figured it wouldn't hurt to provide some supporting documents prior to our meeting this afternoon which I believe support many of my "grandiose" claims about my many "perceived achievements". In addition I am of the opinion that these documents just on their own serve to completely discredit the assertions made by Dr. Rogstad in the report she wrote about me after our meeting.

I attached a bunch of PDF's to this email including a letter from the psychiatrist I have been seeing in CA for the past 7+ years addressing the report Dr. Rogstad wrote as well as his personal opinions about who I actually am as a person (being that he's known me for 7 years and witnessed many of my successes while I was still in CA.

In addition below are some links to articles I have received official credits in - this would include the credit of "Engineering"

I'm looking forward to our Zoom call this afternoon.

See you then,

Matthew Guertin

"the set piece was engineered and built in-house at XiteLabs studio by creative technologist Matt Guertin. LED tiles from PRG were dismantled into smaller component modules, custom configured and re-wired by Guertin at XiteLabs to create smaller radius circular elements to create the smooth edges of the eye. Guertin designed and engineered 420 metal parts cut out of eight different types of material, as well as 268 individual acrylic pieces from six different materials. The estimated total number of soldering points was in the 2,000 range."

Michael,

I feel it should also be noted that many of these PDF's I attached to the previous email I also provided Dr. Rogstad with either prior to our meeting, at our meeting, or post meeting.

She had plenty of relevant information which at the very least supports the fact that there was a whole series of events (very stressful ones..) and other things which took place prior to me arriving at a point in which shooting a gun off in order to contact the police (as opposed to calling them...) seemed like my best option at the time.

I was trying to get help through multiple avenues which would include the attached Minnetonka Police report filed 9 days before the incident (which she chose to gloss over in her report even though it is obviously relevant to the situation)

That is all.

See you soon,

Matthew Guertin
