Jill,

Per our meeting the other day here is a copy of the language matrix I created using MAXQDA which I had mentioned during our disucssion, but which is too high resolution to have printed out and include with the stack of supporting documents I provided you with.

It is attached. The columns are blog articles from PhotoRobot dot com with the most recent url's/ articles on the left hand side and all of the rows are words. The numbers in the matrix and the corresponding colors correlate with the use count as far as how many times a particular word or combination of words was used in each blog post.

This still has the original creation date of December 12th, 2022 which further supports the information I relayed to you about how I had caught on to the fraud taking place early on and had been investigating it for a while leading up to the incident that took place at my apartment resulting in the criminal charges I am currently facing.

It was very nice to meet you and I appreciate you taking the time to listen.

Thanks again,

Matthew Guertin
